COVID-19 Adjustments

As photographers we are completely comfortable accepting forms and payments as usual, but if it is something you would like we are now also accepting forms and payment digitally as well. You can E-transfer or Pay with CC over the phone, as well as submit the form via email for a contactless transaction.

Procedurally Covid does not change how we take our individual still and action photos we are always at a safe distance from the athletes. Only change is whether you would like to do your team photo traditionally or the new team collage or custom cut team photo. This decision is totally yours as either way we will be at distance it just whether your team is comfortable being together. Tradition team photo comes at no extra charge while custom cut team photo has a \$5 per player upcharge to cover the time it takes to cut everyone out and edit them back together.
